Summary

Operations and analytics professional with 4+ years across healthcare, HR tech, and financial services, delivering a 20% reduction in processing discrepancies and 35% faster issue resolution. Proficient in SQL, Tableau, Power BI, and Salesforce, with a strong track record in KPI reporting, data reconciliation, and workflow optimization. Currently pursuing an MSc in Data Analytics for Business at KEDGE, targeting business analyst and operations analytics roles across France and the EU.

Skills

Data & Analytics: SQL, Python (Pandas, NumPy), Excel (Pivot Tables, Power Query, VLOOKUP)

BI & Reporting: Power BI, Tableau, PowerPoint

Business Systems: Salesforce, ServiceNow, JIRA, PeopleSoft, Notion

Methods: KPI Reporting, Data Reconciliation, Root Cause Analysis, SLA Tracking, Process Improvement, Agile/Scrum (PSM I)

Domain: US Healthcare Claims (Medicare, Medicaid, COB, HIPAA), Benefits Administration (COBRA, ACA, FSA/HSA)

Languages: English (C1), Hindi (C1), French (A2), Telugu (Native)

Work Experience

Benefits Operations Administrator | TriNet Zenefits | Hyderabad, India | Aug 2024 – Apr 2025

- Managed end-to-end benefits administration (enrollments, life events, terminations) across medical, dental, vision, FSA and HSA plans for a portfolio of 50 client companies, ranging from SMEs with 50 employees to employers with 1,000+
- Reduced benefits discrepancies by 20% by reconciling HRIS, payroll and carrier data across 10+ system integrations and resolving root causes of recurring feed errors with IT
- Administered ~20 COBRA continuation cases per month and supported ACA eligibility tracking through regular audits of enrollment data against carrier records
- Handled ~25 Salesforce, ServiceNow and JIRA cases daily within a 48-hour SLA, cutting issue resolution time by 35% through standardized escalation workflows with HR, payroll and IT; regularly recognized by clients for quick resolution
- Owned team SOPs and process documentation, and trained 5 new hires on benefits processes, systems and compliance

Senior Claims Associate | Optum Global Solutions | Hyderabad, India | Sep 2022 – Jul 2024

- Audited ~150 healthcare claims weekly across UHC and Aetna portfolios in internal adjudication systems, introducing rejection-trend tracking that reduced recurring adjudication errors by ~20%
- Built weekly SLA and exception reports in Excel covering 500+ claims for 4 team leads, presenting findings in PowerPoint to flag bottlenecks early and reduce rework cycles
- Conducted root cause analysis on billing discrepancies and rejection patterns, implementing corrective actions that reduced escalations
- Prioritized and closed 50+ high-priority claims monthly in coordination with account managers, including itemized billing and UB-04 claims processed in line with HIPAA and state/federal regulations
- Trained 20 new hires on claims workflows, systems and compliance

Analyst | Northern Trust | Pune, India | Jan 2022 – May 2022

- Processed 100+ securities transactions daily in Excel and internal systems within strict regulatory and SLA deadlines
- Reconciled daily transaction data to catch discrepancies before cut-off times, maintaining 100% accuracy
- Prepared weekly exception reports for 2 supervisors highlighting transaction delays and inconsistencies
- Monitored daily deliverables against SLA and KRA targets using checklists and operational KPIs

Claims Associate | Legato Health Technologies | Hyderabad, India | Dec 2020 – Dec 2021

- Processed 500+ Medicare and Medicaid claims monthly, including EOB, COB and payer validation workflows, in line with HIPAA
- Resolved 20+ coordination-of-benefits cases monthly by determining primary payer responsibility, reducing disputes and rework
- Handled appeals, provider submissions and correspondence, resolving 25–30 escalated complex claims per month
- Maintained process documentation to keep claims adjudication consistent across the team

Projects

L'Oréal: From AI Discovery to Measurement | Excel, Business Analytics | 2026

- Analyzed 5 years (2021–2025) of L'Oréal public disclosures, separating reported from like-for-like growth and indexing e-commerce against total sales (CAGR 9.36% vs 8.08%)
- Designed a 6-layer measurement framework for AI-driven discovery, from AI answer visibility to incremental sales lift and repeat purchase, separating attribution from true incrementality
- Proposed a feasibility-gated test/control market pilot for L'Oréal's ChatGPT ad placements, with pre-defined power calculation and decision rules, and benchmarked trends against Eurostat and FRED data.

Porsche: H1 2026 Margin Recovery | PostgreSQL, Excel, Power BI (DAX), Python | 2026

- Tested whether Porsche's reported margin recovery (5.5% → 7.8%, H1 2026) reflected real improvement: underlying margin actually fell from 9.4% to 8.4% once disclosed one-offs were removed, and higher prices per car offset only 44% of the volume loss
- Built an end-to-end analysis from 27 public investor-relations sources: a PostgreSQL data model, an Excel model with EBIT and volume/price revenue bridges, and a 6-page Power BI dashboard with 194 DAX measures
- Reconciled SQL, Excel and Power BI outputs across 1,524 automated checks with 0 failures and modeled 27 FY2026 guidance scenarios to show what H2 must deliver.

Education

MSc in Data Analytics for Business, KEDGE Business School, France, (Expected 2027) - Convention de stage disponible, éligible stage 6 mois

Master of Commerce, Accounting & Finance, Dr. B.R. Ambedkar Open University (2023)

Bachelor of Commerce, Andhra Mahila Sabha School of Informatics (2020)

Certifications

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Professional Scrum Master I (PSM I), Scrum.org
